

## DENVALE TRADE PARKS

Various locations

Hives Architects have been involved in the design and development of a series of projects for Denvale Trade Parks and Denvale Trade Centres. These developments have ranged in size from around 25,000 sq ft up to 80,000 sq ft in locations such as Newbury, Berkshire; Basingstoke, Hampshire; Crawley, West Sussex and Orpington, Kent.

The concept has been bringing together companies reliant on a trade counter showroom operation in an attractive business environment. The buildings are of an industrial style and specification which have incorporated a number of special showroom units with substantial areas of display and visual prominence.
