

WALTHAM COURT, HARE HATCH, TWYFORD

This site is located within the Green Belt and despite the restrictive policies associated with the location, consents were obtained to create a mixture of new build, reconstructed and refurbished units. A total of 11 small business units were created in a style sympathetic to the rural location and on site Listed Buildings. Two courtyards were created, and the units were finished to a very high standard both internally and externally. Two listed buildings were converted, and a more substantial 2 storey brick build structure was refurbished and achieved a change of use permission.
